

CITY AND C.P.R. EFFECT ENTRANCE AGREEMENT

City Secures a Right of Way to the Bridge on Both Sides of the River From the Railway Company.

WILL ASSUME ALL DAMAGES CAUSED BY THE ENTRANCE

This summer says that the High Level Bridge was commenced this morning and finished in 1910.

Both the Council and the C. P. R. Officials Are Satisfied With the Results of the Conference—The Agreement Drawn up This Forenoon and Will be Forwarded to the Ratepayers This Month—The Terms of the New Contract With the Railway Company.

As foretold in the Bulletin the city council and the C. P. R. officials at their third conference yesterday afternoon reached an agreement with reference to the entrance to the city's railway line into Edmonton. This question has been under consideration since 1905 and has been considered in time to time during the years until the present. It was not till yesterday, however, that a solution was reached, probably more nearly than formerly because the C. P. R. men themselves are and are desirous of carrying their line to the city at the earliest possible time.

A three-hour session was held yesterday and then the conference broke up with all the points of contention satisfactorily arranged.

The Conference Granted. By the new agreement the city takes some concessions not provided for in the tentative agreement of 1907. In return for a right of way to the bridge on both sides of the river along the property of the C. P. R., the city foregoes the construction of an overhead bridge on Hardisty avenue. The city officials offered the city the choice of that thoroughfare will be open for use on the level. The company's street south of Jasper where no bridge would be placed in return for the right of way to the bridge, and Hardisty was at length decided upon. It is the one with the least travel. The city reserves the right to construct an overhead bridge at any time in the future.

On the north side of the river, where the C. P. R. right of way is, the city's Hudson's Bay property will likely be 100 feet or more wide from Saskatchewan avenue to the river. The city will have a right of way for vehicular, pedestrian and wagon traffic on the south side of the C. P. R. will permit the use of their right of way to a considerable distance up from the bridge to a convenient point where the car can switch off to the city's Strathcona street. The right of way for vehicular and pedestrian traffic on the south side will be the same as purchased by the city of Strathcona from the property holders in the city.

The city agrees to closing Tenth street from the lane north of the city to Athabasca street. The city will retain half of the width of the street as a right of way to the above mentioned lane through to Jasper street. As part of Tenth street closed has C. P. R. property on the east side, so there will be little inconvenience to other property owners on that side.

The C. P. R. will build four stairways to the bottom of the subway one at each corner. This was thought of in 1907.

City Assumes Damages. The city will assume the damages caused by the entrance to the city, but these are greatly minimized by the C. P. R. purchase of the lot on the north side of the city. The city will be liable for the damages caused by the entrance to the city, but these are greatly minimized by the C. P. R. purchase of the lot on the north side of the city.

C.P.R. Will Be Pleased. F. W. Peters, assistant to Vice-President of the C.P.R., is highly pleased with the result of the negotiations. "It is well satisfied," he said, "that the conference, which we will witness of getting into Edmonton as early as possible. The city officials realized that, in return for the large amount of money that we will spend for our entrance, they should give us a fair deal."

When will work on the bridge be commenced? "We will start work on the bridge," he said, "as soon as we can get the money for it. It is a large amount of money, but we will start work on the bridge as soon as we can get the money for it."

"I cannot yet name an exact date when we will start work on the bridge," he said, "but it will be incorporated into the agreement to be submitted to your citizens. We will start work on the bridge as soon as we can get the money for it."

"I would not like to name a definite date when we will start work on the bridge," he said, "but it will be incorporated into the agreement to be submitted to your citizens. We will start work on the bridge as soon as we can get the money for it."

"I would not like to name a definite date when we will start work on the bridge," he said, "but it will be incorporated into the agreement to be submitted to your citizens. We will start work on the bridge as soon as we can get the money for it."

THE CITY OF ADAM
COMPLETELY DESTROYED

London, April 29.—According to the Constantinople correspondence of the Telegram, the town of Adana, in Asiatic Turkey, which has been the scene of massacres by fanatic Turks for some days past, has been completely destroyed by fire. The survivors are dying from famine.

DOORS OF HOSPITAL FAIR
SWING OPEN TO THE PUBLIC

His Honor Lieutenant Governor Bulfinch Presses the Button, Setting the Great Bazaar in Motion. A Scene of Wonderful Activity and Exciting Beauty. First Day's Receipts Shall Fund the Women's Hospital Aid Society.

Edmonton's business, and social and domestic life has completely centered in the Bazaar Fair which was inaugurated yesterday afternoon and evening. The great auditorium, which has been the scene of many a festive gathering, has never before been so crowded. The fair, which has received such spontaneous support from the public, is a scene of wonderful activity and excitement. The fair, which has received such spontaneous support from the public, is a scene of wonderful activity and excitement.

The first was made to the public at three o'clock. His Honor Lieutenant Governor Bulfinch pressed the button, setting the great bazaar in motion. A scene of wonderful activity and excitement. The fair, which has received such spontaneous support from the public, is a scene of wonderful activity and excitement.

Mrs. Arthur Murphy, president of the fair, was the first to enter the auditorium. She was followed by her husband and a large number of guests. The fair, which has received such spontaneous support from the public, is a scene of wonderful activity and excitement.

EXCLUDE PUBLIC AND PRESS FROM INQUEST

Hamilton, April 29.—There is a strong probability that both public and newspaper reporters will be excluded when the coroner's inquest opens on Monday afternoon, with Florence Kennedy on the stand. Coroner Anderson favors this suggestion inasmuch as many of the jury opposed the idea.

THE HOLLAND REJOICES ON THE BIRTH OF PRINCESS

The Hague, April 29.—Queen Wilhelmina this morning gave birth to a daughter, a princess, who will be named Wilhelmina. The princess is the first child of the queen and the king, who have been married for 25 years.

SATURDAY SATURDAY

Great Stock-taking Sale

AT

HUDSON'S BAY STORES

Bargains That Will Make This Store Buzz With Busy Shoppers

Saturday will be the last day before we commence stock-taking. It is therefore, to use an expression more forceful than elegant "UP TO US" to make a complete clearance of these lines before 10 o'clock. Stock-taking is very much like Spring cleaning; it means a straightening up of stock; and a general clean-up throughout the store.

Before we begin taking stock; we must have many lines of goods considerably lowered and in order to do this we are offering on Saturday sensational price cuts on the most wanted merchandise. Such powerful price persuaders make it worth while coming miles for. Of course you'll be here. The savings are really too good to miss. Read every item in this ad; then come and let us prove what we say.

FANCY DRESS MUSLINS 81¢

Have you ever heard of such a thing. We venture to say not. Anyway we're placing for sale a line of fancy Dress Muslins, good quality Muslins too, and all pretty designs. Our Saturday Sale price is..... **8½¢**

FANCY COTTON VOILES 17½¢

This is an exceptional price cut and we are simply doing it because we are too heavy in this particular line. All beautiful designs on white grounds. They are really good values at 35¢, but in order to swell the sales takings for Saturday, away they go at..... **17½¢**

Building Statistics for March as Compared with Corresponding Months of the Country—The City Shows Gain of 12.56 per cent.

Instead of there being any indication of a let up in the building line, greater activity has been shown during the season average, and it seems no longer a question as to whether Canada will surpass all previous records, but more of a matter of speculation as to how great the gain will be. Returns for the year's work returns for March are reflecting a "boom" from centers throughout the Dominion in every section of the Dominion, show that not only has the month registered a material increase over the substantial gains made in the two preceding months, but that a remarkable building wave is sweeping over the entire country.

Of the fifteen cities reporting, twelve submit comparative figures which place the gain for the month at 12.56 per cent, over the corresponding period last year, which is also, it is gratifying to note, has a decrease been recorded. One thing is quite evident, in view of the volume of construction now being carried on, and that the money of the country is being found its way back into the channels of trade and that the country's protective investments are much easier to negotiate than in former years.

The highest increase for the month (54.6 per cent) is noted in the case of Winnipeg which shows a gain of 54.6 per cent over the corresponding month of last year. This is a gain of \$1,000,000 or more buildings as compared with \$114,000 for the same month of 1908.

Peterborough has the second largest gain of 29.4 per cent, over the corresponding month of last year. The amount is small, it shows however, that work is being done in that city in excess of that of the corresponding month of last year. It is noteworthy, the only city in the "last month's table" to show a falling off, has retained the same amount of work of 200 per cent, and Calgary has again come forward with an increase of 12.54 per cent, over the corresponding month of last year.

It is gratifying to note, in view of the high percentage of work done in the city last month, that the figures for the month of March are also noted in the case of Vancouver and Victoria which show a gain of 12.56 per cent, respectively. Both of these cities have shown a gain in advance since the first of the year, and it is reported that at no previous time has there been as great an amount of work in immediate prospect.

A striking feature of the month's report is the strong upward trend which prevailed throughout Ontario. Every city submitting comparative figures has more than doubled the amount in building enterprise as compared to the month of March last year.

Fort William's gain was 26.9 per cent; Toronto 10.5 per cent; Ottawa 10.5 per cent; London 10.5 per cent; Peterborough, as previously stated, 29.4 per cent; and it is quite likely that equally as good a record will be made in the case of Windsor, Berlin and other cities. Comparative figures for the corresponding month of 1908 are also submitted. From the manner in which Toronto is forging ahead, it looks very much as though it will be the leader in new buildings this year. Fort William also will undoubtedly have a much higher per cent. gain than any other city. Ottawa will, in all probability, show the greatest building year in its history.

In Montreal everything is moving along in a most satisfactory manner. The gain for the month of 90.28 per cent, following the marked increase in January and February indicating that the metropolis is enjoying a very material gain of 27.5 per cent, also brings her commensurate to the work and despite of the falling off experienced in January, the figures for the month are not troubled her figures on the season's work.

Reports from the various cities as to future work shows the outlook to be more propitious. "The future is very bright," Berlin "good," Edmonton "looks very bright," Winnipeg "looks never looked better," Winnipeg "bright," while in Toronto, Halifax, Vancouver and Victoria many improvements are in immediate prospect.

City	March 1909	March 1908	Per Cent
Berlin	14,000	10,000	40.00
Calgary	14,000	10,000	40.00
Edmonton	14,000	10,000	40.00

FLEET SET IN ICE FIELD

Up Bound Steamers on Lake Michigan.

Sault Ste. Marie, Mich., April 29.—Communications received from Whitefish today denote that the fleet in the ice are not making much progress because they left. Their five boats have made the passage into Lake Superior. The first dispatch received yesterday afternoon. Some passed Tuesday a.m. These were the first to go out last night, when they were first out. The second dispatch received today denotes that the fleet is broken away and is moving west, only one boat is fast and is moving with all other boats. There is no danger of ice southeast wind prevails. All the other vessels in the fleet, with the exception of the steel trawler, which are being at the Soo, have been broken away from the ice.
